With the establishment of our new school facility came the design of an "official" school seal for Karns High School. The seal is symbolic of the academic and extra-curricular aspects of student life including the geographical setting where K.H.S. was founded.

Each symbol found in the four areas of the seal depicts a different aspect of school life. The gear, steno-pad, triangle and scissors represent all vocational areas of study including office education, drafting, cosmetology, trades and industries. The scroll and pen incorporates all academic fields of study other than vocational. The lyre and palette symbolize the fine arts. The winged foot represents all athletic areas of competition. The waves above the quadrant represent the geographical founding of the old school on Beaver Creek. A front view of the new school facility is pictured above the waves. At the top of the seal the flame in the form of K.H.S. is pictured to display our hope for peace and tranquility over the world. The word "Beavers" recognizes the traditional school mascot.

Our official school seal is and will continue to be a proud display of our pride and spirit at K.H.S. The seal is incorporated on our classrings, senior announcements, diplomas, and school stationary, and will always be a meaningful tradition for Karns High School students.

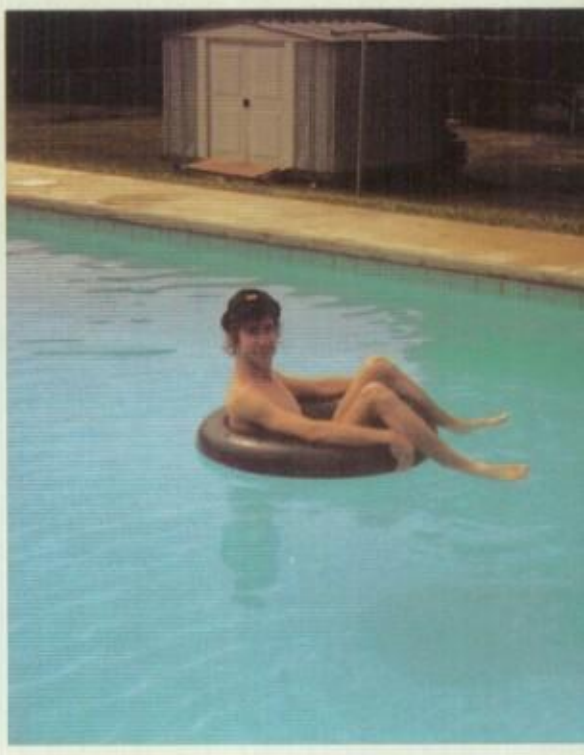
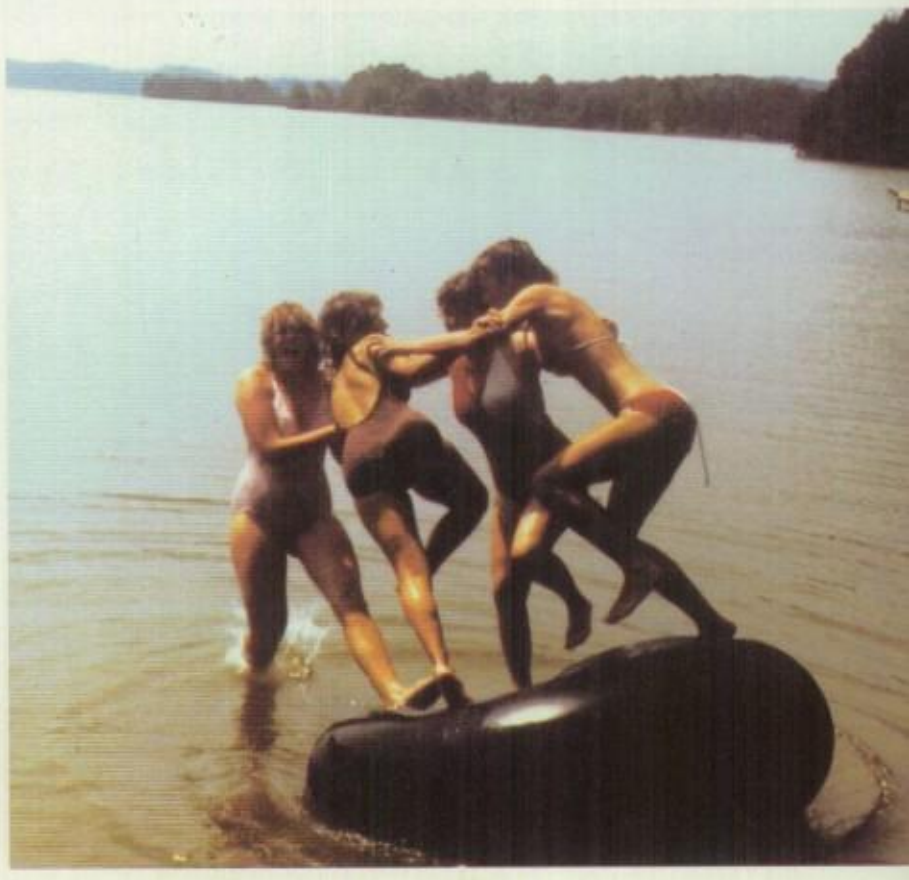
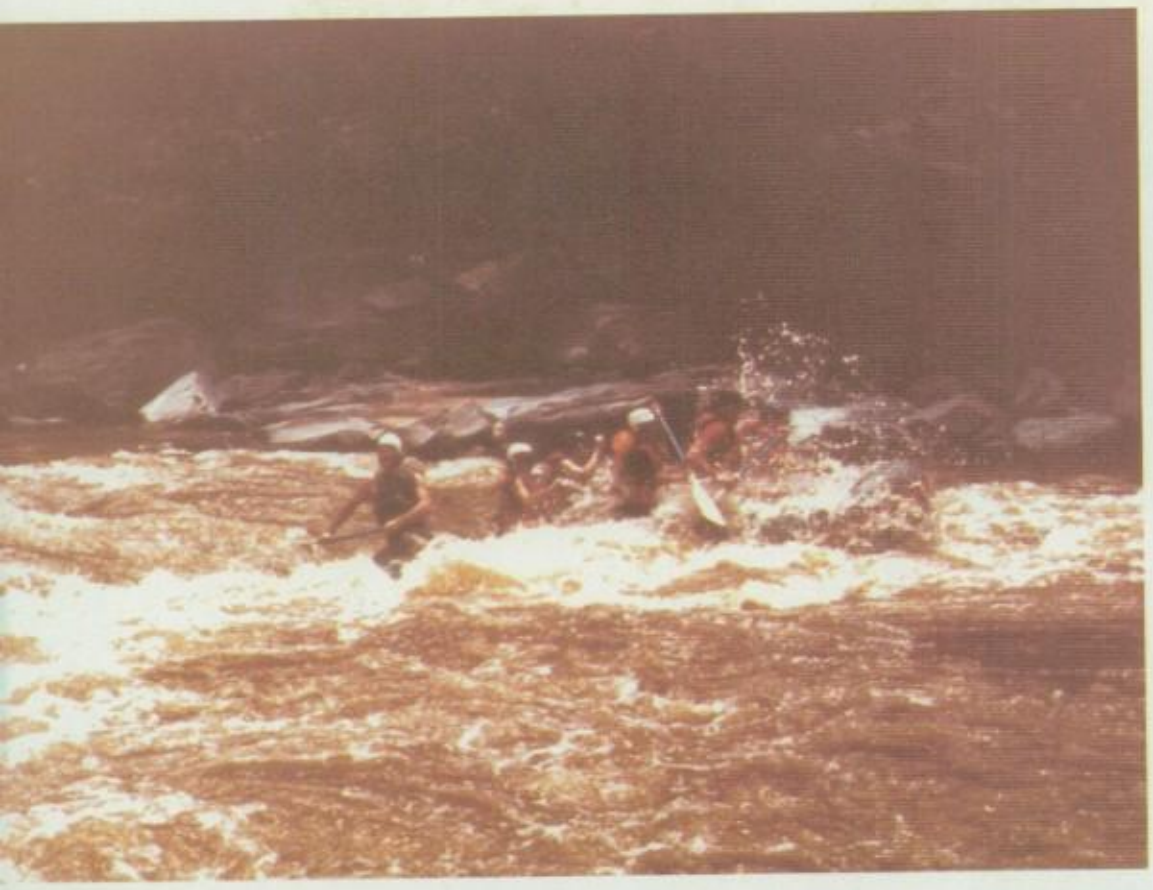
Summer Stuff

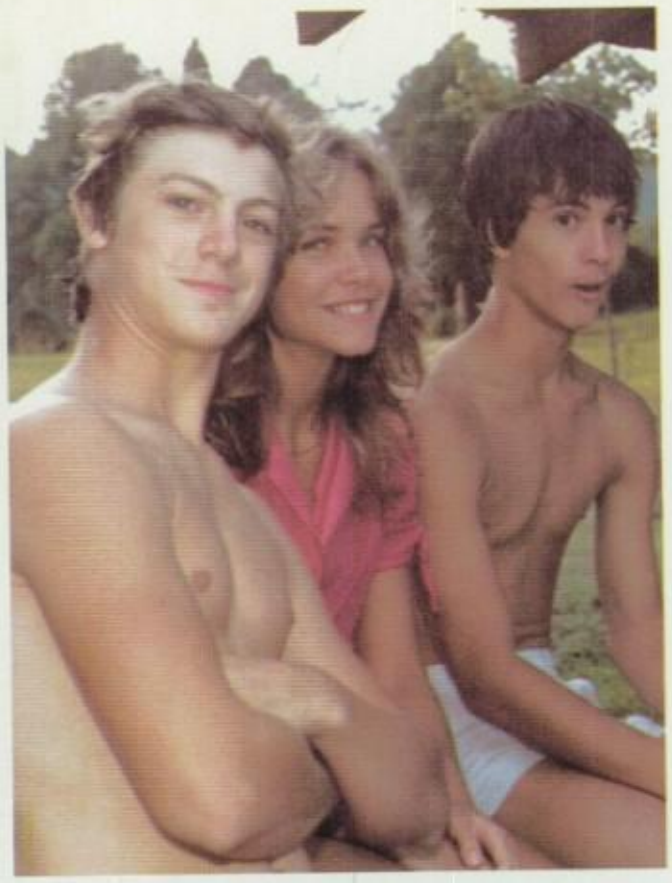
Ah, the summer of '82! It was a time for laughter and a time for cheer. School was out, so for three, short-lived months KHS students could sit back, relax, and have fun. Free at last from the worries of homework, grades, and tests, mentally drained KHS'ers spent the first few days of summer taking it easy and catching their breaths. After that, however, they wholeheartedly devoted themselves to having a good time.

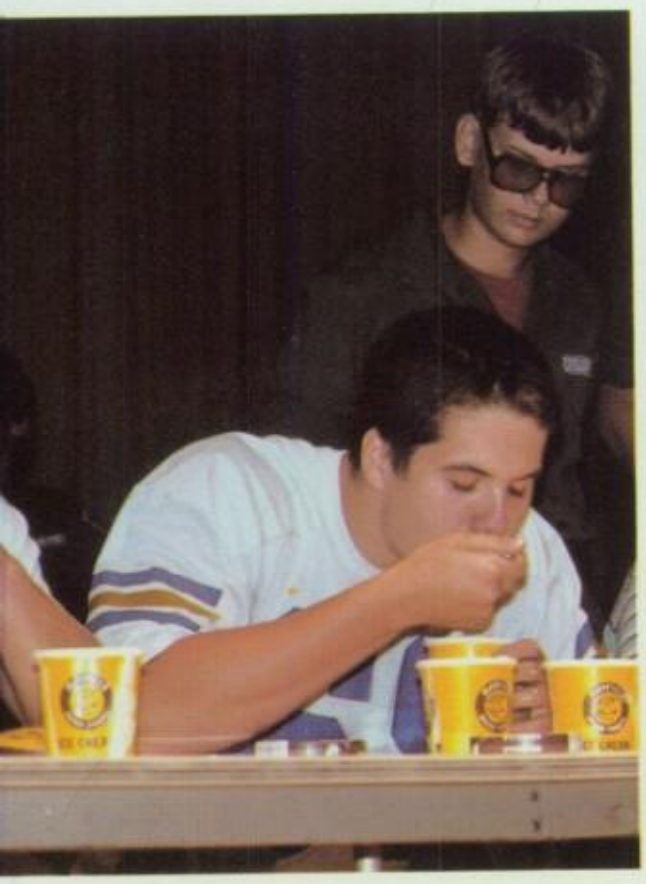
· Although everyone's goal during the summer was to have a good time, not everyone went







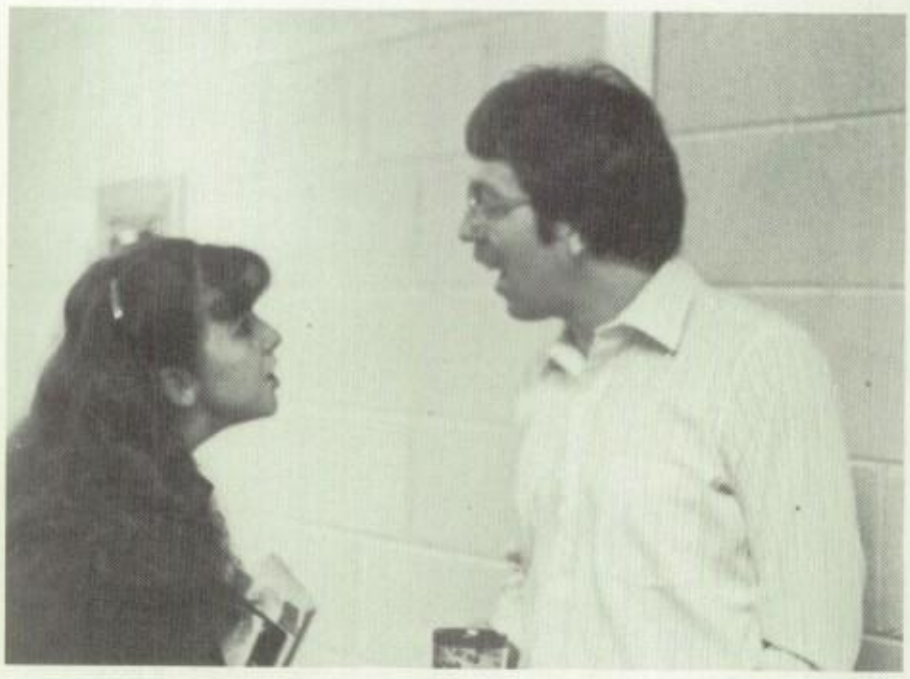


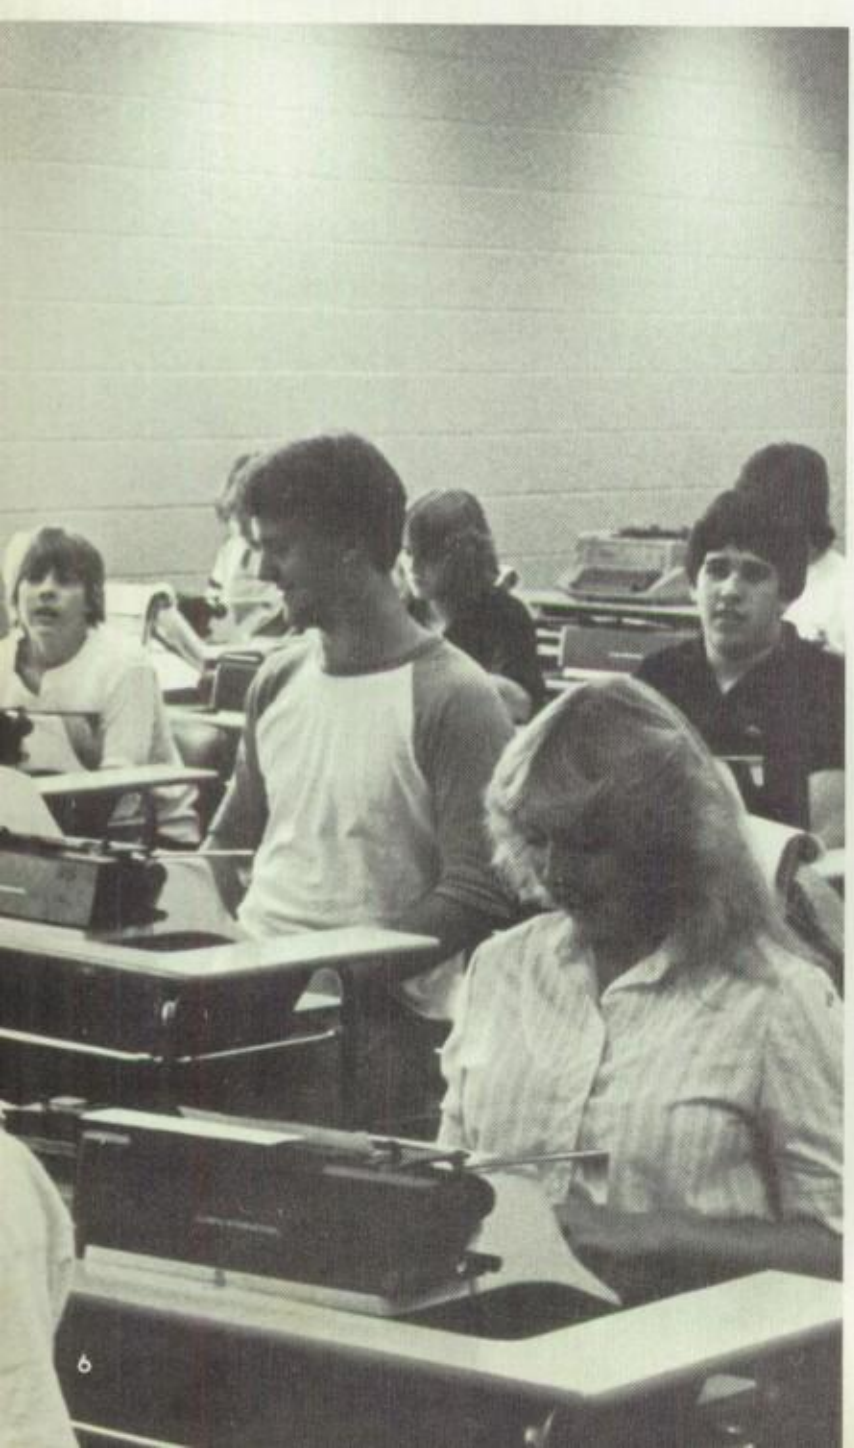


about having it in the same way. Those who get a "kick" out of football spent the biggest part of the summer on the field getting in shape for the fall season. If band was one's beat, naturally summer band practice couldn't be missed. Last but not least, everyone including history buffs, carnival lovers, gourmets, and energy enthusiasts, spent a multitude of fun-filled hours browsing around the site of the 1982 World's Fair. The presence of the fair in Knoxville made the summer of '82 both unique and unforgettable, since it isn't every day that one has the "world" at his doorstep.

We Had to Be There on August 26, 1982

The first day of school is a time for readjustments, making new plans, facing new challenges and looking forward to new experiences. Seniors begin the year with elation and expectations for a great year at the top. Juniors face the year with new ideas and plans for the future. Sophomores enter willing to meet the challenges of a new year head on. Freshmen start the year with feelings of excitement and





anxiety. For the Faculty, the new year is a chance for making improvements and meeting challenges and responsibilities. The first day of school is an example of all the many different feelings and changes one experiences throughout their life.

Back to the Old Grind

We Were There

On September 9, students from K.H.S. took a field-trip to the 1982 World's Fair. This trip was taken to make senior superlative and candid pictures for the annual.

Although we didn't have very much time, we saw quite a bit. Anyone in the Fun Fair area should have been able to hear McCall Bohanan scream while on both the Pirate and the ferris wheel. Of course, we couldn't leave out how Dana Manley screamed on the swings.

The fair had a number of munchie shops, many of them specializing in foods from faraway countries. Petro's was one of the favorite munchie stands at the fair — "I've Been PETRO-fied!"

As it turned out the fair was interesting, exciting, and an overall success.

Practice Makes Perfect

Fall does not only mean the start of school, it is also the time when sports begin their preparation for the season ahead. Our baseball and wrestling teams are beginning to organize their teams for preseason workouts. Already the basketball and volleyball squads have spent numerous hours in the gym. Our football team has just returned from training camp and the cross-country team is preparing for their first meet. Long hours of training lie ahead for our school athletes so that they can represent our school to the best of their ability. The coaches are concentrating on conditioning their competitors for the beginning of their upcoming seasons. Practice is only a part of the rigors of preseason. Discipline must be obtained so that all of our athletes can compete in a satisfactory manner. With the coaches' constant reprimands, our athletes learn to eliminate the mistakes that can mean the difference between winning and losing.

Friendship

Friendship is such a complex subject that it's really hard to put into words. Friendship isn't one thing, but it's a combination of feelings and events that become very special to us. It's a shame, it seems, that we don't recognize friendship until we've lost it and it's too late. Friendship is the very thing we thrive and grow on, and should be first on our list of priorities. It's not easy to find a good friend, but a good friend should be cherished and respected because if we fail to do these things our friendship is lost and we can never regain it quite the way that it was. Whoever your very best friend is remember how important they are and treat them so they'll always be there. Friendship is so special that we need to preserve it and keep it safe for our happiness is life. Forever.

Exchange Student

The Foreign Exchange Student at Karns this year is Jose Luis Gonzalo (Peces).

Jose decided he wanted to come to America when he talked to a friend who had been here before.

He discussed this with his family, and they found a Swedish organization (AISE) that would help. The organization then got in touch with a family that was willing to host. Jose realized that the things he was used to in Spain, like the scholastic atmosphere and the people, would be different. This thought hit him when he received his first letter from his new family, Ronald and Nancy Martin.

Jose arrived in America on August 14. When Jose first started school, he was so intent upon making good grades and doing well, he was staying up very late. When he missed a few days because of this, a counselor told him to ease up on his study habits.

Jose said a big difference between Karns and the school he used to attend is the girls; Spanish schools are not co-ed. The classes Jose enjoys the most are advanced math and English.

Since coming to America, he has enjoyed the acceptance the people have shown toward him the most.

Some of Jose's hobbies are painting and playing the piano. His favorite sports are soccer and running track.

As for future plans, after graduation, Jose will go back to his home and attend a Spanish university. He would like to come back to America and study law.

Open House

This year at KHS, Open House was held on October 5. It was a chance for students to bring their parents to get acquainted with their teachers. It was also a good time for parents to find out how well the students were *really* doing in class.
Parents also got to talk with Mr. Everette and meet the rest of the faculty.

The 1982 football team worked hard to reach their goals. Although injuries hindered the total achievement of the team's goals, the offensive unit achieved a 170 yards per game average. Furthermore, the defense scored a touchdown in each of the first three games.

Since there are a considerable number of graduating seniors on this year's team, the underclassmen must work hard to reach their goals next year. They know that success depends upon their efforts and dedication on and off the playing field.

We Made History

Congratulations Beaver Roundballers! After the basketball team finished a disappointing 81-82 season, the Beavers turned the program around with a 22-12 overall record. The team surprised everyone with the runner-up spots in the District and Regional basketball play-offs. As Regional runner-up, Karns earned a berth in the Sub-state play-offs. This is the first time since 1936 that a Karns boys' basketball team has achieved this feat. What makes this sub-state position more incredible is the fact that Karns basketball, which was supposedly in a rebuilding year, had three sophomore starters. With all of these great accomplishments behind them, both Karns basketball players and fans alike look forward to a great season next year.

Editor's Note

is hard to believe that the end of the year is already here and the annual is finished! Neither of which — especially the ompletion of the annual — could have been possible without the help of quite a few people. The *whole* annual staff orked really hard this year, and an enormous thank you is in order to each and every one of them. First and remost, to Diane Gause, our sponsor, goes a big hug, kiss, and thank you! A lot of the credit for keeping things gether all year goes to Kim Thomas who was the layout editor, Tommy Owens, the copy editor, and Alisa ackworth, the business manager. The other members of the staff worked just as hard and deserve a huge thanks! To reg Weaver, Barry Wallace, Donald Isakson, Dana Manley, Anne Newman, Kim Latham, and Carla Jenkins, thanks! It ook a lot of hard work to produce this annual and the whole staff did a great job!!

his also seems to be the time to thank Richard Elliott, our sales representative from Taylor Publishing Company. Final hanks goes to Mr. Everette for his support and guidance throughout the year.

his year has been one of change and growing for everyone, and I hope this year's annual has captured some of the pecial memories and events that we will remember for years to come.

am happy to say that I will be back next year, but to all the seniors that will not be back — goodbye, and we will miss ou.

With the establishment of our new school facility came the design of an "official" school seal for Karns High School. The seal is symbolic of the academic and extra-curricular aspects of student life including the geographical setting where K.H.S. was founded.

Each symbol found in the four areas of the seal depicts a different aspect of school life. The gear, steno-pad, triangle and scissors represent all vocational areas of study including office education, drafting, cosmetology, trades and industries. The scroll and pen incorporates all academic fields of study other than vocational. The lyre and palette symbolize the fine arts. The winged foot represents all athletic areas of competition. The waves above the quadrant represent the geographical founding of the old school on Beaver Creek. A front view of the new school facility is pictured above the waves. At the top of the seal the flame in the form of K.H.S. is pictured to display our hope for peace and tranquility over the world. The word "Beavers" recognizes the traditional school mascot.

Our official school seal is and will continue to be a proud display of our pride and spirit at K.H.S. The seal is incorporated on our classrings, senior announcements, diplomas, and school stationary, and will always be a meaningful tradition for Karns High School students.
